Re: TRIAD STEEL SERVICES – LETTER OF RECOMMENDATION

To Whom It May Concern:

It is my pleasure to recommend Triad Steel Services. Westcor has been working with Triad Steel on the SanTan Village Regional Shopping Center in Gilbert since January 2006.

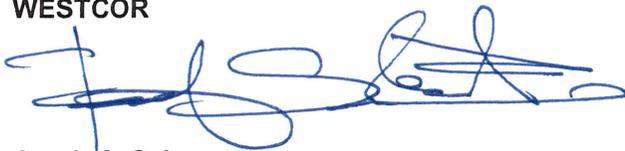

We believe that Triad Steel is at the top of the class for steel contractors. The following bullets are just a short list of some of the critical construction principles they have exemplified nothing short of excellence and thus have made for a successful project of all the parties concerned!

- Effective & Fair Project Pricing
- Effective & Prompt project submittals and COR's
- Effective Coordination with other trades
- Effective Scheduling & Planning
- Effective RFI correspondence
- Quality Workmanship

In closing, I can without hesitation recommend Triad Steel Services to meet or exceed any and all construction challenges with the utmost confidence.

Respectively,

WESTCOR

Jacob C. Schwartz
Project Manager
